Notification to Produktregistret

25 February 2005

Dear Sir

Our file:
Mentioned below
Our ref:
GMG
Tel: +45 72208753

Arbejdstilsynet, Produktregistret (the Danish Working Environment Authority, the Register of Substances and Materials), has received 2 notifications from your company/Dansk Toksikologi Center dated 24.11.2004 of the following products which hereby are assigned the PR-Nos (product registration numbers)

Trade name	PR-No.	File No.
Flexigum Komponent A	1727958	2004-7321-63460
Flexigum Komponent B	1727966	2004-7321-63461

The PR-Nos are assigned on the condition that your company informs Produktregistret, if any part of the information in the notifications is changed. This includes changes in the compositions, the Danish importers, the trade names or the yearly exported quantities, and also if the export of the products to Denmark is terminated.

The PR-Nos shall be indicated on the Danish Material Safety Data Sheets and the packagings of the products. Regarding the packagings this must be done not later than one year from today.

The PR-Nos are registration numbers, which solely confirms that the products are notified. Therefore, the PR-Nos cannot be regarded as an approval of the products.

Yours sincerely

Graca Maria Gosk
